4) User Interface

Advantages

A. Features of the upgrade HIFU:

- 1) Quick & short treatment time : 30 MINS one face treatment
- 2) SMAS contraction : collagen remodeling , elastine fiber contraction
- 3) None downtime : skin just become red within the first several hours , then skin recover .
- 4) Instant result will be checked from the second month to the ninth month , good result will last 2-3 years
- 5) Totally non-invasive

B. Treatment advantages

- 1) Radar carving:1-9 points that are adjusting can be shot per second.
- 2) New radar technology cartridges are more suitable for some small areas, like areas around eyes, mouth and forehead.

Applications

- 1) Removing wrinkles on around forehead, eyes, mouth, etc
- 2) Lifting and tightening both cheeks skin.
- 3) Improving skin elasticity and shaping contour.
- 4) Improving jaw line, reducing "marionette lines".
- 5) Tightening the skin tissue on forehead, lifting the eyebrows lines.
- 6) Improving skin complexion, making the skin delicate and bright.
- 7) Removing neck wrinkles, protecting neck aging.
- 8) Weight loss.
