# Diode Laser

---

**3-5** = Permanent  
sessions hair removal

**Hair removal**  
**Skin rejuvenation**

**Model #FG2000D**

# Theory

## How does the diode laser works ?

During the treatment, laser penetrating into the skin is absorbed by the melanin in the hair follicle, leading the hair follicle temperature raising and stopping to generate of melanin, resulting in a permanent hair removal finally.

Three wavelengths can penetrate different depths of the skin, working on different depth of hair follicle, making the treatment more effective.

### DIFFERENT SKIN COLOR TYPE IS AVAILABLE

					
<b>TYPE I</b> Light, pale white	<b>TYPE II</b> White, fair	<b>TYPE III</b> Medium, white to olive	<b>TYPE IV</b> Olive, moderate brown	<b>TYPE V</b> Brown, dark brown	<b>TYPE VI</b> Black, very dark brown to black

# Technical Advantages

---

## 01 Handle

- 12\*16mm Anti-Ice patent design: longer spanlife of the handle
- 0.5kg applicator: lighter

## 02 Tapered Tip

- Tapered Tip makes easier operation on small area hair removal

# Testimonials

---

DR.Cindy

Really amazing to me, it's great, the hair no longer grows after only 4 times. I like ADSS and look forward to more machines from ADSS.

DR.Armando

I have used ADSS machines for many years. The first one is the diode laser, and now my clinic is full of ADSS machines. I believe ADSS. It has accompanied me all the way.

DR.Maria

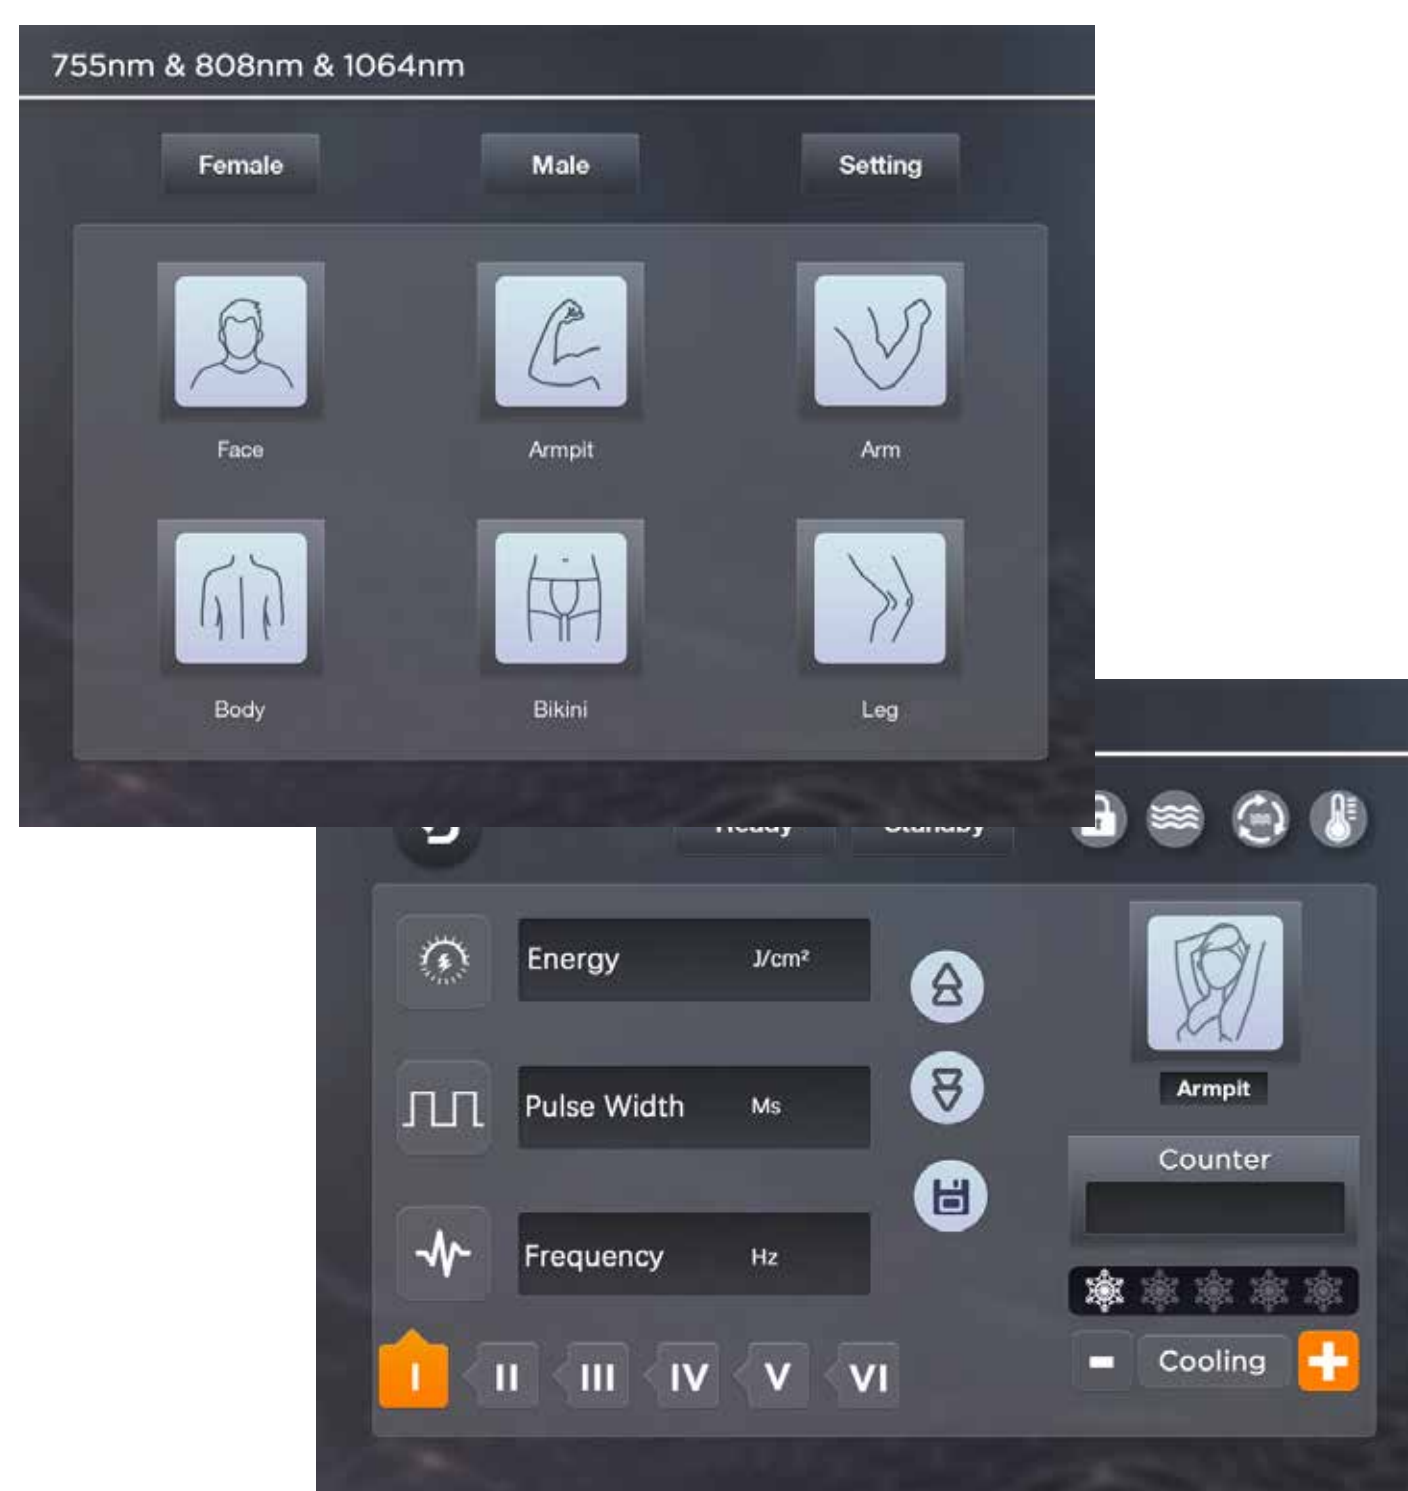

I have used many machines. This semiconductor machine from ADSS can achieve very good results in only 5 times. I eliminated my previous hair removal device because it takes 10-12 times for a patient to remove it, so I lost a lot of patients, ADSS helped me regain my reputation, Thanks!

# Benefits

## 03 Interface

- Intelligent protection system ensures the safe operation
- 6-area icon records the shooting number

## Return on Investment

Treatment Items	Average Fee	Procedures	Revenue
Full Legs	\$100	5	\$500
