Cool 360°

Freeze Away Stubborn Fats

Largest Manufacturer
since 2005

Professional
OEM/ODM service

www.adss.com.cn

Cool 360° technology

New Cool 360° surrounding cooling system gives even cooling 60% faster from all angles, improving efficiency and results.

The larger encompassing of target area, more fat cells can be targeted and killed per treatment.

Faster, 35 minutes saved

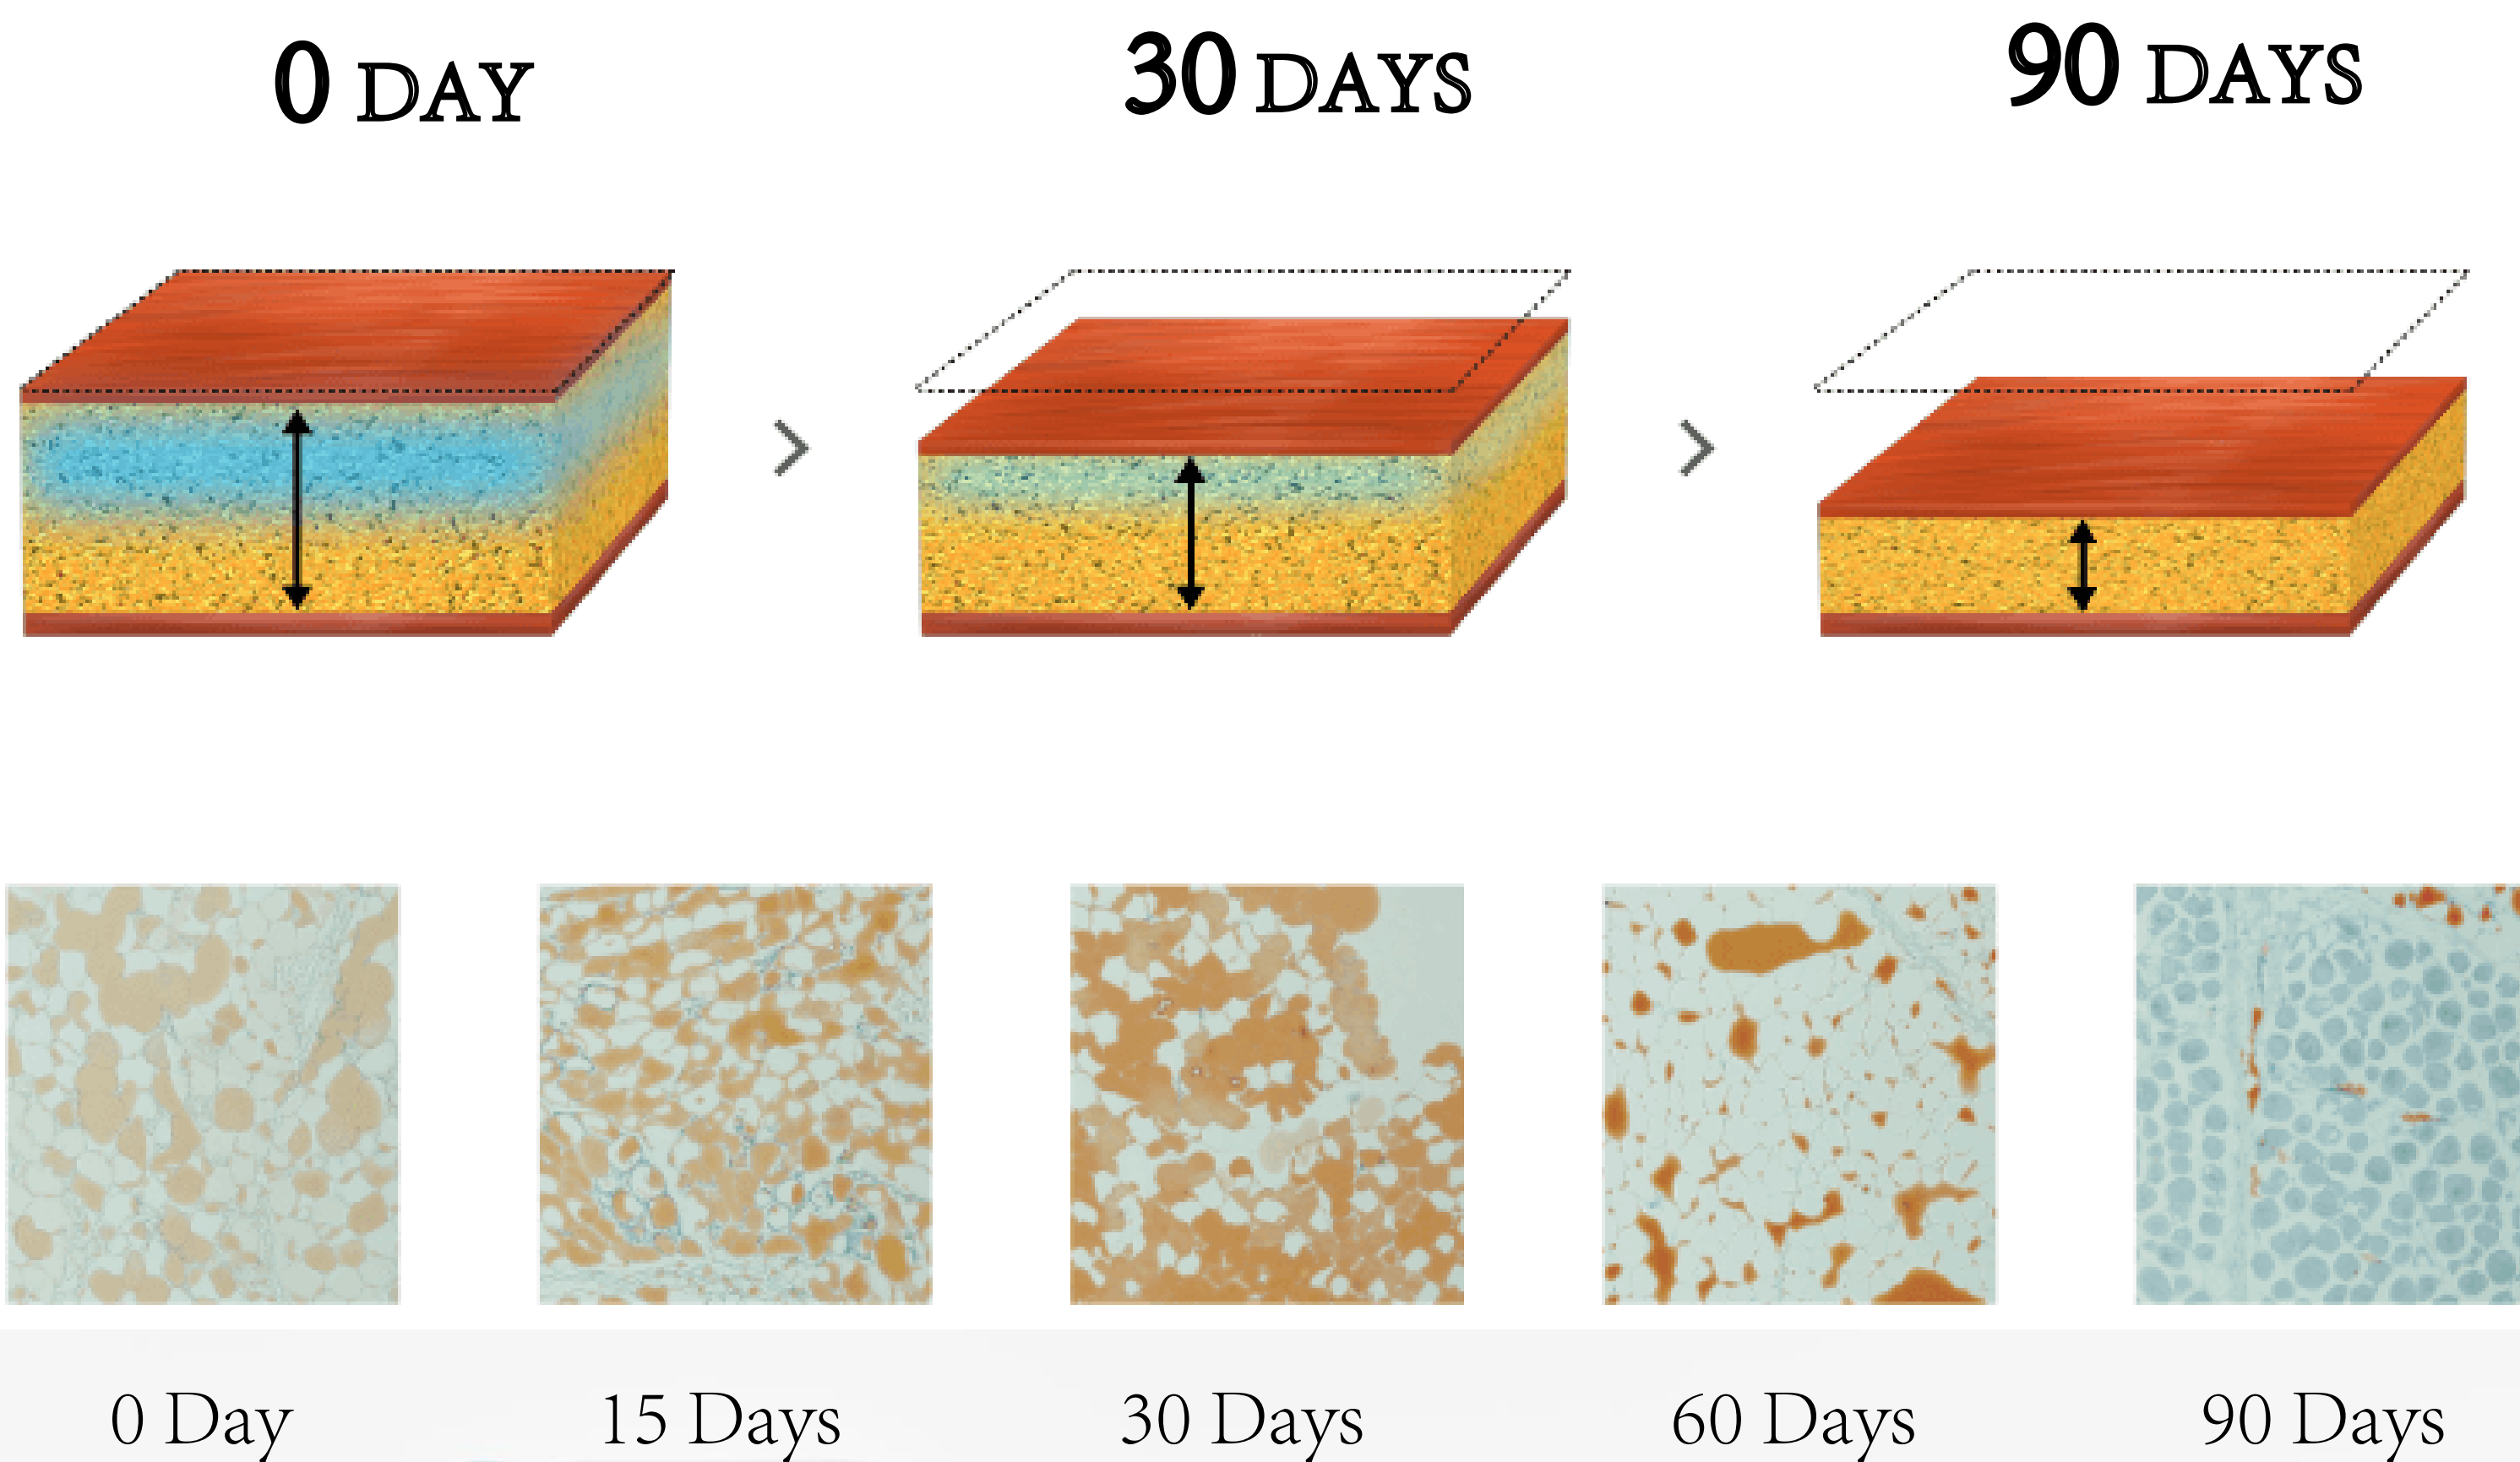

Increased comfort

60% more tissue treated

Theory

Cryolipolysis is Harvard University patent technology, frozen de-fatting lock temperature technology, getting -10 to $+5$ °C under the skin, fat cells aging ahead of time and death. The fat cells in the treated area are gently dissolved through the body's normal metabolism process and then the dead cells in 1-3 months via lymphatic system.

Many of us have stubborn fat despite diet & exercise.

Cryolipolysis technology uses controlled cooling to target & kill only these fat cells.

In the weeks to follow, your body naturally processes the fat and eliminates these dead.

Cryolipolysis procedure results are long-term, as treated fat cells are gone for good.

Application

Treatment Area

Abdomen

Double Chin

Upper arms

Thighs

Buttocks

Waist

Clinical Data

Female | Age 36
Weight: 58.2kgs
Circumference: 56cm(left) 55.5cm(right)
(before)

inner thigh 2 treatment areas and 3 sessions
Weight: 54.1kgs
Circumference: 53.6cm(left) 51.8cm(right)
(after)

Female | Age 42
Weight: 70.3kgs
Circumference: 97.6cm(before)

Waist :4 sessions
Weight: 60.6kgs
Circumference: 82.2cm (after)

Testimonials

DR.Amy

In fact, after a minute or two, you will be completely acclimatised to the sensation and even fell asleep during the 50-minute long session!

DR.Ahmed

360-degrees cooling means a larger surface area of fats is covered, with potentially up to 40% fat reduction in a single session. To benchmark, traditional fat freezing sessions usually hit up to 25% fat reduction.

DR.Mina

we use the clinically tested, Cool 360 is the most technologically advanced system available today, and unlike other cooling treatments, cool 360 has 4 handpieces, so it can treat 4 clients or 4 area at once, saving you valuable time and money.

Technical Advantages

01 Proven technology

Fat Reduction VS Weight Loss

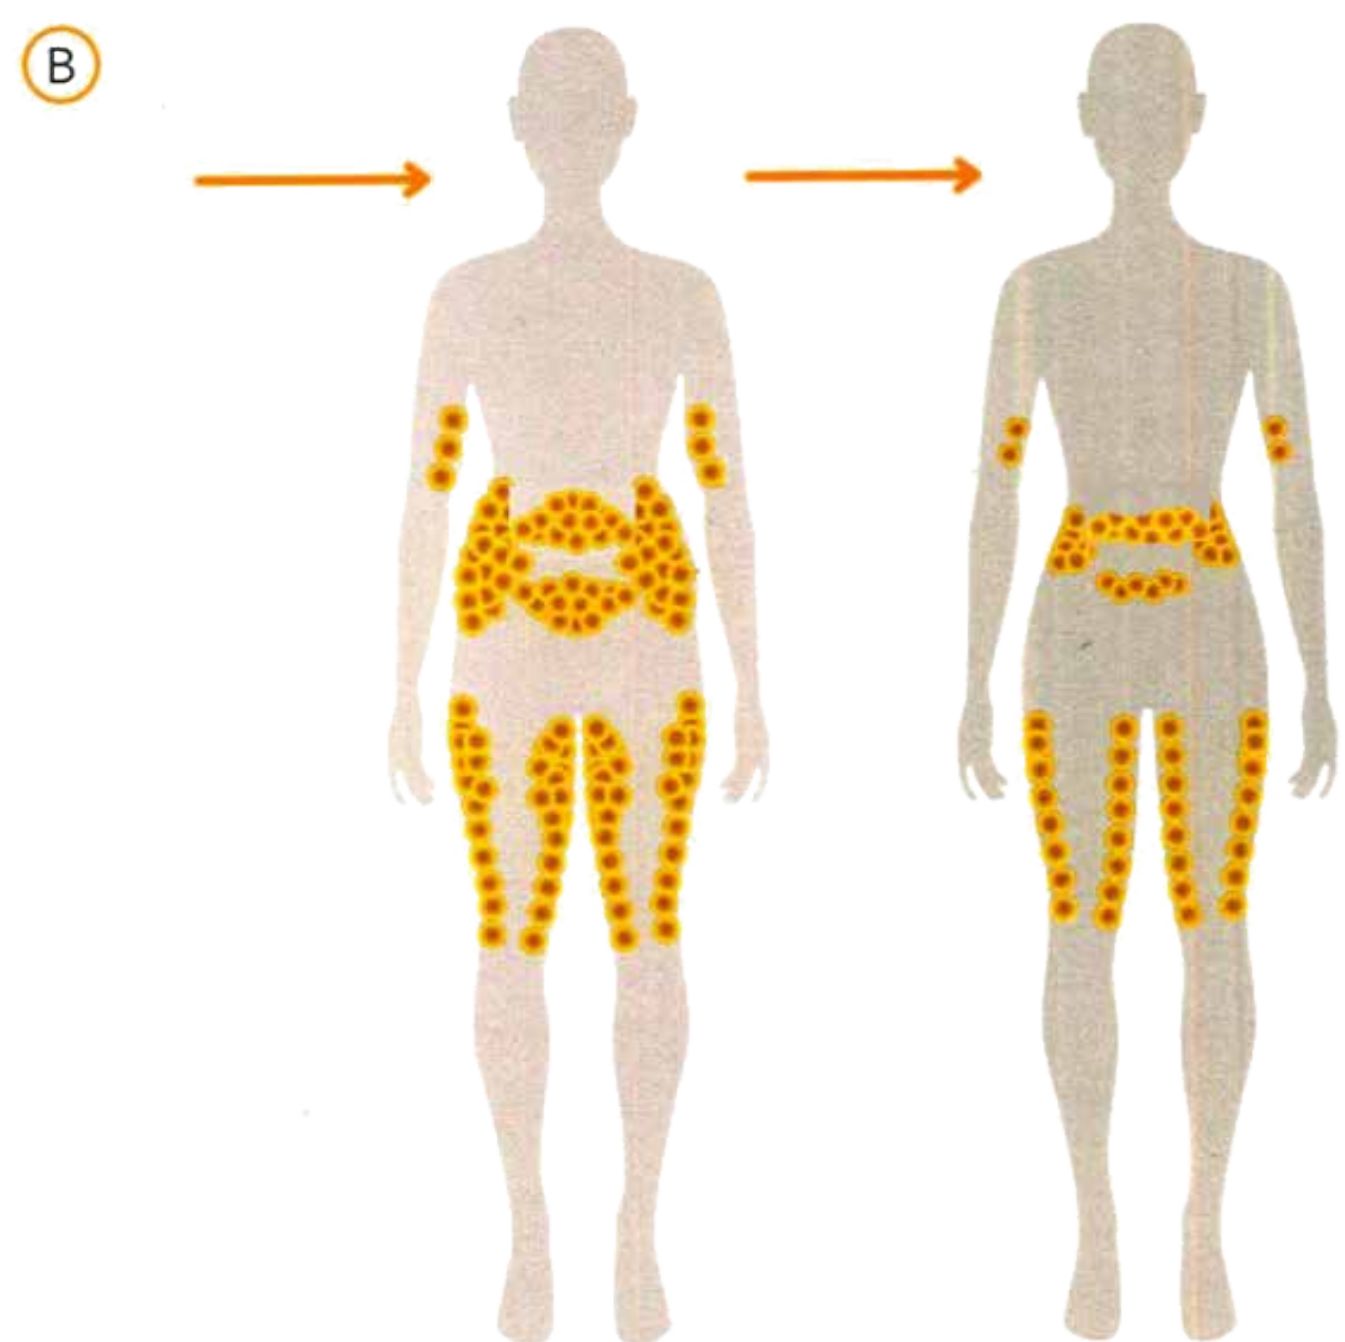

They may sound similar, but fat reduction and weight loss are two very different concepts.

Losing weight doesn't always lead to a more sculpted appearance—but fat reduction can reshape and contour your body.

Fat Cells (After Weight Loss)
Fat cells shrink in volume

Fat Cells (After Cryolipolysis)
Fat cells numbers reduction

■ What happens when you lose weight?

When you lose weight, the size of your fat cells decreases but the number of fat cells stays the same.

■ What happens after your cryolipolysis treatment?

After treatment, targeted fat cells are eliminated for good so you will have fewer fat cells in the treated areas. Untreated areas will have no change in fat cell distribution.

02 Cover more tissue

NEW Innovation 360 touched cooling. 100% effective cooling area, surrounding cooling action in entire applicator

V S

Traditional Cryolipolysis by Two Chilling Plates Only. 40% effective cooling area, cooling by two pads inside applicator

03 Localized fat tissue treatment ensure maximum safety.

360° surround cooling non invasive cold therapy fat reduction procedure makes fat cells under a process “apoptosis”, the applicator localized reduction of fat deposits. The degree of exposure to cooling causes cell death of subcutaneous fat tissue, without apparent damage to the overlying skin.

04

Customized Applicators

HANDLE A

(Large Size)
24.6*62*48cm

HANDLE B

(Medium Size)
20.6*62*48cm

HANDLE C

(Small Size)
17*62*48cm

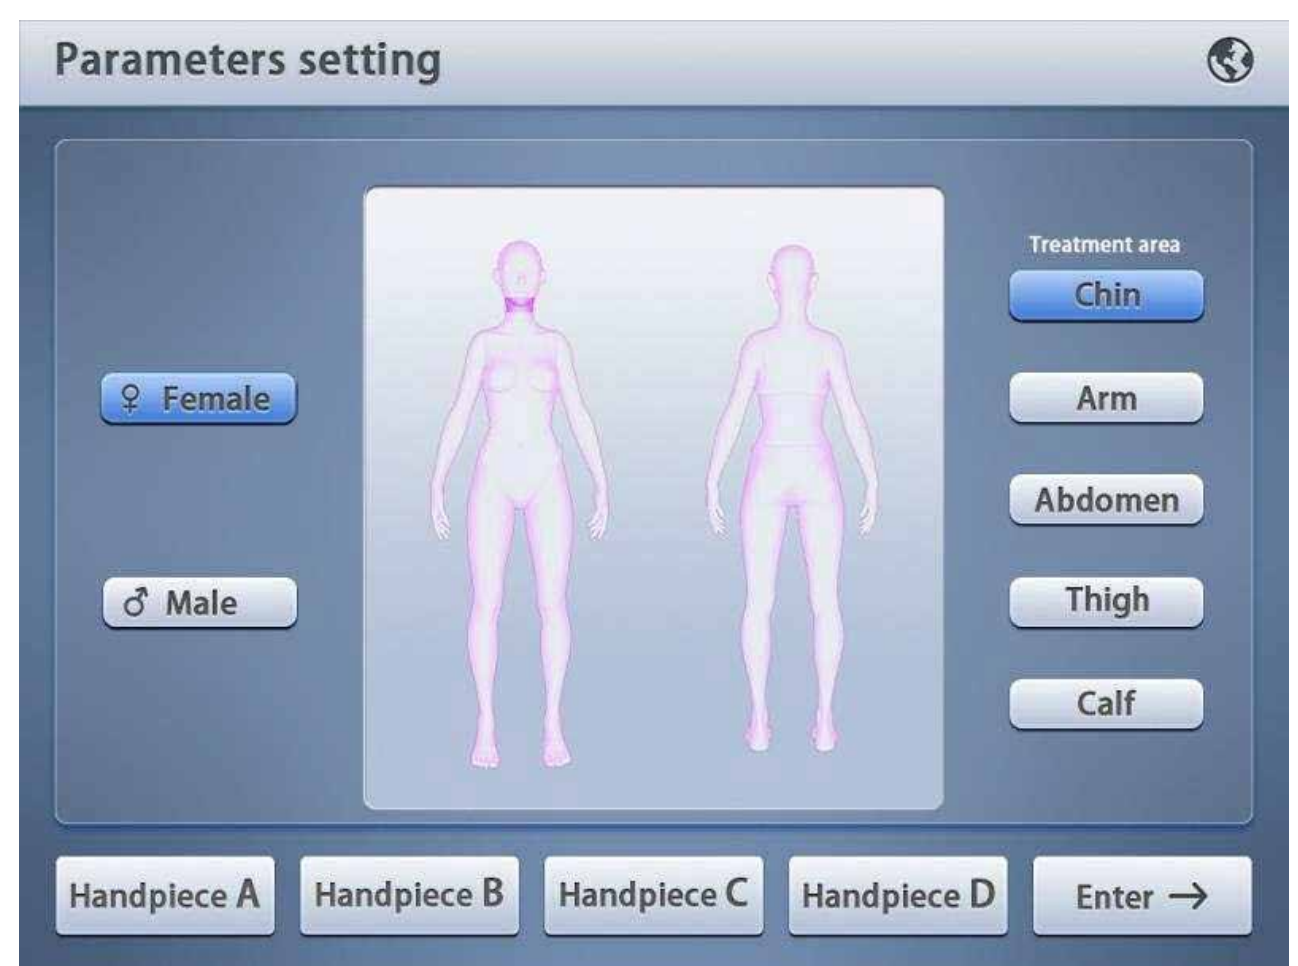

HANDLE D

(For double chin)
8.4*26*25cm

06 User friendly software

- Intelligent parameter recommending.
- Each handle, after choosing gender and treatment area, the parameter will be recommended automatically.

- 4 handle independent pressure control
- Each handle, the cooling and pressure control separately, more comfortable and safer

Specifications

Power Supply Output	1000W
Handles Number	4
Vacuum Pressure	0-60kpa
treatment time	0-60mins adjustable
Cooling System	water+wind+semiconductor
Cooling Temperature	-10 °C to 10 °C
Screen	15" true color touch LCD display
Language	multi languages
Voltage	110V/220V
Package size	67*63*123CM 76*51*44CM

Accurate Temperature Control System

New Technology 360 Degree Cooling

10 Size Contours Versatile use

Non Invasive
No Pain
No Rebound

Up to 40% fat reduction
Satisfied Results

Benefits

Clinical benefits

- Effective and safe therapy
- Comfortable treatment
- Non-invasive and minimal downtime
- Hand free operation
- Permanent fat reduction

Super 360° cool sculpture can generate up to

\$800/session

Treatment Area	Average Fee	Sessions	Total
Abdomen	800	1	\$800
Double Chin	700	3	\$2100
Upper arms	650	2	\$1300
Thighs	600	2	\$1200
Buttocks	800	3	\$2400
Waist	800	3	\$2400

Training Academy

Professional training of clinical operation and technical maintenance

Business Academy

Successful examples of profitable projects and business management models

Founded in 2005, a leading manufacturer for multi types Aesthetic & Beauty Equipments.
